MHP - is a leading producer of poultry on the Ukrainian market.

MHP is a vertically integrated company, operating each stage of the poultry production process – from the cultivation of land and growing crops for feeds to the production and distribution of chicken meat.

OUR COMPETITIVE ADVANTAGES:

Distinctive vertical integrated model:

- Complete control over quality at each stage of production;
- Flexibility in response to market demands and changes;
- keeping production costs under control and having one of the lowest poultry production costs in the industry;

We use modern technologies with world-class production: our business is built around state of the art technologies and we continuously strive towards innovation.

Ecological advantage: Ukrainian lands are famous for its black "chernozem" soil, which is highly fertile. Also our facilities are situated in places with great ecology.

Poultry production capacity in Ukraine:

100% of poultry

produced at own facilities

8,039,838 heads

slaughtered per week

758,712 tons

of poultry produced in 2020

382,263 tons

sold for export in 2020

OPERATIONAL EXCELLENCE

HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

ALL MHP enterprises have introduced integrated food safety management systems, which adhere to the highest international standards. BRC certification guarantees standardization of quality, safety and operational procedures of our enterprises to ensure the best poultry.

The company slaughters poultry according to the Islamic Law under the permanent supervision and control of representatives of the Center for HALAL Quality Certification (Croatia).
